***Legal Basis:**

- Implementation of Executive Order (E.O.) 72 and the Deputation of Zoning Administrator. Per EO 72, specifically Section 3 (a), it devolved the authority of the HLURB to issue locational clearances to cities and municipalities with approved CLUP and ZO. But it also states in Section 5 that *“Provisions of Sec. 3 (a), to the contrary notwithstanding, cities and municipalities with land use plans approved not earlier than 01 January 1989, shall issue locational clearances; Provided, that said LGU shall update their respective Land Use within five (5) years from the approval of such plans”*.
- With this provision, LGUs with no approved CLUP and ZO on or before 1989 will give the processing and issuances of Locational Clearance to the HLURB Regional Office. Since LGU Tunga’s latest approved CLUP and ZO was still in 1985, HLURB, or now the Department of Human Settlements and Urban Development (DHSUD) – Region 8 will receive, process and issue all the Locational Clearance applications. This is until the LGU Tunga will have an updated CLUP and ZO.

Municipal Disaster Risk Reduction Management Office

- 1. Disaster Preparedness Orientation/Training and Drills**
- 2. Disaster Rehabilitation and Recovery**
- 3. Disaster Response**

VISION

A disaster-resilient Tunga where communities are safe, prepared, and adaptive to risks, ensuring the protection of lives, properties, and sustainable development through proactive disaster risk reduction and management.

MISSION

To build a culture of safety and resilience by implementing effective disaster preparedness, response, recovery, and mitigation programs. Through community participation, innovation, and strengthened partnerships, we aim to reduce disaster risks and ensure a coordinated and efficient disaster management system.

GOALS

- **Enhance Disaster Preparedness** – Conduct regular training, drills, and information campaigns to equip communities with the knowledge and skills to respond effectively to disasters.
- **Strengthen Disaster Response** – Establish a rapid and well-coordinated emergency response system to protect lives and minimize damages during calamities.
- **Promote Risk Reduction and Mitigation** – Implement infrastructure improvements, early warning systems, and climate adaptation strategies to reduce vulnerabilities.
- **Ensure Efficient Recovery and Rehabilitation** – Facilitate immediate post-disaster assistance, livelihood support, and rebuilding efforts based on the “Build Back Better” principle.
- **Foster Community and Stakeholder Engagement** – Strengthen collaboration with barangays, government agencies, NGOs, and the private sector to improve disaster risk management effort.
